

SURAJ NAIR

Full Stack Developer & Cybersecurity Enthusiast

nairsuraj2111@gmail.com | +91 8619331834 | github.com/Surajnair21 | linkedin.com/in/suraj-nair-8a6ba0285

EDUCATION

B.Tech in Computer Science

Expected 2026

JK Lakshmipat University, Jaipur

EXPERIENCE

Full Stack Web Developer

Internship

Solviser Pvt Ltd

- Engineered full-stack web applications using modern frameworks including React and Node.js.
- Architected scalable solutions combining powerful frontend interfaces with robust backend systems and REST APIs.

Web Developer

Internship

AIC-JKLU (Atal Incubation Centre)

- Crafted responsive web interfaces and optimized UI/UX for startup-facing digital products.
- Collaborated with cross-functional teams to deliver end-to-end digital solutions for early-stage startups.

PROJECTS

Universe ERP System

React, Node.js, Python, AI/ML, PostgreSQL, REST APIs

- Built a fully customizable AI-integrated ERP platform for colleges and universities covering admissions, academics, HR, finance, and hostel management.
- Integrated an LLM-powered AI assistant to automate administrative tasks, generate institutional insights, and provide intelligent decision support to faculty and staff.
- Designed role-based dashboards for students, faculty, administrators, and management — enabling a unified digital campus ecosystem.

Custom SSH Honeypot

Python, FastAPI, WebSocket

- Built a lightweight Python-based SSH honeypot that mimics Linux servers to attract and analyze attacker behavior.
- Developed a real-time WebSocket dashboard to visualize attacks live and harvest attacker credentials for security research.

XSS Hunter Browser Extension

JavaScript, Chrome API, DOM Injection

- Created an automated DAST scanner for Chrome/Brave with a 'Silent Hook' engine to detect XSS execution without blocking the UI.
- Implemented support for React/Angular state changes and polyglot payload injection for comprehensive vulnerability testing.

Hostel Management System

Node.js, SQL, HTML/CSS

- Built a comprehensive management system for university housing operations with a SQL backend and dynamic web frontend.

TECHNICAL SKILLS

Frontend	React, Next.js, Tailwind CSS, HTML/CSS
Backend	Node.js, Python, FastAPI, REST APIs
Databases	MySQL, PostgreSQL, MongoDB, Firebase
Security & OS	Kali Linux, Linux Administration, SSH, DAST, XSS, Honey pots
Tools & Other	Git, C, Chrome Extension API, WebSocket

CERTIFICATIONS

- Google AI Essentials – Google
- Red Hat System Administration (Linux Admin) – Red Hat
- Mobile & Frontend Development Certification
